

When it's get to Industrial compressed air, gases, Rastgar specializes in compression, Transmission, Filtration capabilities to deliver the right quality of air at the right volume at the best life time cost/per unit of the investment. Full services and spares back up is ensured on the products sold.

With over 43 years of experience in this field, Rastgar & Co is your ideal partner for selection and dependable supply of equipment.

LMF Air Compressors

LMF can provide Rotary Screw Compressors to match a huge variety of applications in terms of power, flow, pressure and the quality of compressed air delivered. [Read More...](#)

On - Site Nitrogen Generation

The cost-effective, reliable and safe solution for medium to large nitrogen requirements. [Read More...](#)

Air Process & Gas Compressors

American Petroleum Institute Compliant Air, Processed Gas, Feed Gas Compressors [Read More...](#)

Hospital Air, Gas & Vacuum

MedAir is a Stable source of medical Air Integrated, stable source of Compressed air and gases for Hospitals and medical environments. [Read More...](#)

Medical Oxygen Generator

Oxygen is one of the most basic drugs that exist. In many acute illnesses such as acute respiratory infections, asthma, fetal asphyxia and shock the availability of an oxygen supply [Read More...](#)

Vacuum Pumps, Compressors & Blowers

The Becker Pumps Corporation is a leading manufacturer of vacuum pumps, compressors, and regenerative blowers. [Read More...](#)

Materials Handling Solutions

RMH provides reliable range of Hyundai and Hyster Forklift Trucks. All Sectors of Material Handling Equipments are available from Rastgar. [Read More...](#)

Process Gas Compressors

Oil-free Mehrer Piston and diaphragm compressors are ideal for compressing process gases. Our diaphragm compressors are used for particularly high final pressures. [Read More...](#)

Rice Processing Machinery

Buhler technology covers the full range of rice and paddy handling – from pre-cleaning, paddy storage, dryers, hullers, polishers, rice whiteners, optical sorters to bagging. [Read More...](#)

LMF Portable Compressors

LMF portable range of air compressors are rugged in construction yet quiet in operation. Fitted with either Caterpillar or Cummins engines [Read More...](#)

Dryers & Filters

The LMF Range of dryers provides essential protection against moisture damage to downstream products and processes. [Read More...](#)

Flow Meters & Leak Detectors

Helping reduce wastage of energy by monitoring leakage and consumption of Compressed Air. [Read More...](#)

Tamturbo VSD Turbo Compressors
TOUCH-FREE. OIL-FREE. CARE-FREE.

Touch-Free turbo compressors The high-speed turbo compressors produce oil-free compressed air. [Read More...](#)

Compressed Air Audit Services

AirAudit helps Industrial Customers identify opportunities for reducing energy consumption and overall business costs. [Read More...](#)

Engineering, Procurement & Construction (EPC) Compressed Air Systems

AirPro Technix is an Engineering, Procurement & Construction (EPC) Contractor of Compressed Air Systems in Pakistan which offers Modern. [Read More...](#)

Filtration Solutions for Industrial Dust, Fume & Mist

Donaldson brings experience, expertise and products and services to help you effectively address your dust, fume and mist collection challenges with a lower total cost of ownership that can also help create labor savings. [Read More...](#)

Filters for Compressed Air, Liquid, Gas & more

Ultrafilter Scandinavia offers a wide selection of filtration products for compressed air, sterile air/steam, liquids, gas & water treatment. [Read More...](#)

Sakoon Air Compressor Service

Sakoon Pneumatics service all brands and models of screw Air Compressors in Pakistan along with AIREND Refurbishment. We also provide Rental Air Compressors and Air Compressors Parts (Air Filer, Oil Filter, Oil Separator) and Oil. [Read More...](#)
